*The Worldheart Foundation has the **culturele ANBI status**.
Donations to charities are eligible for tax deduction if the charity is designated as a public
welfare institution (ANBI).*

YOUR FISCAL BENEFITS

As a result of the Dutch Donation Act, the donation is 125% tax-deductible on an annual basis, that is a sum of €1,250. There is no deduction threshold or limit for periodical donations. €1,250 is deductible. This can yield a tax saving of 52%*: €650 instead of €1,250. So the €1,000 donation will cost only €350 net a year.

*The calculation in the example above shows the 52% tax rate for the income from employment and home ownership (the highest tax band). The actual tax advantage depends on, for example, the income, personal circumstances and the tax rate in the relevant fiscal year. The tax rates and the deduction options can change (annually).
